#### Education

2023- Stanford University | Stanford CA

PhD Epidemiology & Clinical Research

Co-advisors: Mathew Kiang, ScD, Michelle Odden, PhD

2019-2021 Stanford University | Stanford CA

MS Epidemiology & Clinical Research

Co-advisors: Michelle Odden, PhD, C. Jason Wang, MD, PhD

2016-2017 University of Pennsylvania | Philadelphia PA

Post-baccalaureate

Pre-specialized Health Studies

2012-2016 **Princeton University** | Princeton NJ

AB Ecology and Evolutionary Biology

Advisor: Robert Pringle, PhD

## **Fellowship Appointments**

2024- Stanford University School of Medicine | National Cancer Institute

T32 Predoctoral Fellow, Department of Epidemiology and Population Health "Genetic and Environmental basis of Cancer Risk and Disparities (GECaRD)"

# **Professional Memberships**

2025- Member, Society for Epidemiologic Research

# Research Experience

2024- Kiang Lab | Stanford University | Department of Epidemiology & Population Health

PhD Student Researcher

Leveraging digital phenotyping to assess sleep health among young adults

Building a digital phenotyping pipeline to process and analyze big data from smartphone sensors (e.g., accelerometer, GPS, and screen state) into meaningful and useable digital features for analyses

Early signs of aging among chronically stressed young adults

Using clinical biomarkers of aging and digital phenotyping to assess the social, lifestyle, and daily movement behaviors of chronically stressed young adults

### 2018-2023 Wang Lab | Stanford University | Department of General Pediatrics

Data Analyst & Graduate Researcher

#### Childhood resilience in the Taiwan Birth Cohort Study (TBCS)

Studied the longitudinal relationship between poverty and resilience using the life course perspective in TBCS (N>20,000) [MS Thesis]

Developed and validated a resilience survey instrument using psychometric property analysis in a population of over 20,000 children [paper]

#### A mobile health intervention to reduce the risk of recurrent preterm births

Co-developed a mobile health app, *PretermConnect*, to educate, engage and empower women at high risk for preterm births with personalized health resources on how to promote both their own and their baby's health and wellbeing [paper]

Led the development and design of a healthcare provider-facing dashboard

Managed 2-4 research assistants on a weekly basis

#### Understanding cardiometabolic risk factors for non-alcoholic fatty liver disease (NAFLD)

Led and conducted the analysis of the associations between body fat and muscle mass and nonalcoholic fatty liver disease [paper]

Used deep learning validation to detect NAFLD through ultrasound diagnostic imaging [paper]

#### 2017-2018 Relman Lab | Stanford University | Department of Microbiology and Immunology

Research Assistant

#### Salivary flow rate and the overall health of the human oral microbiome

Conducted over 1000 DNA extractions on human oral plaque and saliva samples

Designed experiments to troubleshoot lab contamination issues

Conducted preliminary analyses for microbiome data

### 2016-2017 MacGregor Infectious Diseases Clinic | Hospital at University of Pennsylvania

Research Assistant

#### Eradicating Hepatitis C in HIV/HCV co-infected patients

Conducted quality improvement study to assess the effectiveness of the clinic's Hep C eradication initiative Conducted chart review, database extraction and query, and data entry

### 2014-2016 Pringle Lab | Princeton University | Department of Ecology and Evolutionary Biology

Undergraduate Researcher

#### The covariation of diet and the gut microbiome in large African mammals

Conducted DNA-based molecular lab work on large mammalian fecal samples from our field sites in Kenya, Africa

Conducted microbiome analyses of fecal samples to characterize the gut microbial diversity and determine the role of diet and gut physiology on the gut microbiota composition [paper]

Social tolerance and social tradition in capuchin monkeys: insights into human culture [Junior Independent Research Project]

# Summer 2014 **Boston Children's Hospital** | Department of Otolaryngology and Communication Enhancement Summer Intern

Co-authored a textbook chapter, "Sinusitis," that focused on the anatomy, pathophysiology, clinical and surgical treatments, and post-operative care of sinusitis

Assessed the feasibility and efficacy of radiofrequency ablation surgical instrumentation for endoscopic resection of juvenile nasopharyngeal angiofibroma (JNA) compared to traditional endoscopic technique Conducted SEER data analysis in pediatric patients with tonsillar cancer

**Publications** 2025 Duan Y, Li Y, Xu C,... Hsing J.C.,..., Zhu S. (2025). ## **Teaching Assistant Experience**

<u>Year</u>	Course Title / Program	<u>Institution</u>
Fall 2024	EPI 225: Introduction to Epidemiologic and Clinical Research Methods	Stanford University
Winter 2025	EPI 261: Intermediate Biostatistics: Analysis of Discrete Data	Stanford University
Spring 2025	EPI 262: Intermediate Biostatistics: Regression, Prediction, Survival Analysis	Stanford University
Summer 2025	EPI 259: Introduction to Probability and Statistics for Epidemiology	Stanford University
Summer 2025	Stanford Population Health Summer Research Program (previously AHEaD)	Stanford University

## Poster Presentations, Honors & Awards

July 2025	Stanford Office of Graduate Education Travel Award   \$1,000		
June 2025	"Feasibility of smartphone-based digital phenotyping in the 3E cohort of emerging adults"		
	Society for Epidemiologic Research Annual Meeting   Boston, MA   Poster		
Nov 2016	The 2016 Clinical Practices at the University of Pennsylvania (CPUP) Quality & Patient Safety Award		
Jun 2016	"The effect of gut physiology and diet on the gut microbiota of large mammalian herbivores"		
	Senior Thesis Best Poster Award in Physiology   Princeton University		
May 2016	Princeton Research Day   Princeton, NJ   Undergraduate Senior Thesis Poster		
Sept 2015	AAO-HNSF Annual Meeting & OTO Expo   Dallas, TX   Abstract		

#### **Research Grant Contributions**

2022	Using mHealth to improve healthcare system performance for preterm infants and mothers
	NIH R01   Principal Investigator: C. Jason Wang, MD, PhD

Role: drafted and edited specific aims and research strategy; conducted power calculations

2022 Modern, Integrative, Populomics Cohort for Asian American (MIPCAA) for Personalized Health

NIH UG3 | Principal Investigator: Ann Hsing, PhD

Role: designed tables and figures; edited specific aims, research strategy, and significance

2019 Follow-up and Prevention of Preterm Birth with a Mobile Digital Strategy

NIH R01 | Principal Investigator: C. Jason Wang, MD, PhD

Role: drafted and edited the specific aims, research strategy, and significance sections

2015-2016 The Effect of Gut Physiology and Diet on the Gut Microbiota of Large Mammalian Herbivores

EEB Bonner Fund and the Office of the Dean of the College | Awarded \$6,425

Role: drafted and edited entire grant; obtained funding for my undergraduate thesis research to study the gut microbiota composition of large mammalian herbivores in sub-Saharan Africa

## Mentoring

Year(s)	<u>Mentee</u>	<u>Program</u>	<u>Institution</u>
2025	Jane Fan	Epidemiology & Population Health	Stanford University
2025	Joyce Wu	Epidemiology & Population Health	Stanford University
2019-2022	Jasmin Ma	Center for Policy, Outcomes, and Prevention	Stanford University
2020-2021	Stephanie Cheng	Center for Policy, Outcomes, and Prevention	Stanford University
2020-2021	Aviva Mattingly	Epi Peer Mentorship Program	Stanford University
2019-2021	Manafoh Moiwa-Grant	Center for Policy, Outcomes, and Prevention	Stanford University
2019-2020	Nwamaka Ofudu	Center for Policy, Outcomes, and Prevention	Stanford University
2018	Emily Pung	Summer Research Internship	University of Maryland

## Recent Community Service & Outreach

2025- Epidemiology & Population Health (EPH) | Stanford University

EPH Ambassador

Guided prospective and incoming students in navigating the transition to Stanford.

Held monthly office hours to answer questions about the EPH program, department, and life at Stanford.

2021- **WELL for Life** | Stanford University

Resident Artist & Information Designer

Designed and illustrated a well-being guide (60 pages), infographics, and monthly newsletters

2021-2023 Journal Reviewer

BMC Public Health, Journal of Medical Internet Research

2019- Menlo Church | Sanctuary Young Adults Ministry and Weekend Worship Service

Worship Violinist

Lead weekly services for the congregation in a band of 6 other members

2019-2021 Arbor Cardinal Free Clinic | Stanford University

Mandarin Interpreter & Patient Health Navigator

Interpret and translate for Mandarin-speaking patients and their families; serve as their patient health navigator; provide health education

2019 Stanford Health Care | Outpatient Surgery Center

Patient Navigator

Guided patients and families to the pre-operating area, assisted charge nurse and staff as needed Created informational packets for discharge
